

Community Outreach

2019-2020

LUCE had organized community work for F.Y.B.Ed. students in Punarvas Special School, Shashi Manglyam Special School, and Disha Karna Badhir Vidyalay. All these selected schools had special needs students. Initially, our students had observed their school activities and student's daily schedule in the school. Later students helped their teachers in their daily activities like craft-related work, daily prayer, exercise, and sports-related activities.

Along with this student teachers had created awareness to use online payment apps to their maids and shopkeepers like Gpay, Bheem and Paytm. Community lunches for students to develop secular feelings amongst them, planting trees in internship school/colleges.

Students have created awareness about single use plastic ban in community through making brochures and distributing those to people.

Student-teachers of LUCE had organized community outreach on the Single-use Plastic ban on 31st August 2019. This awareness campaign was taken at three stages Cognitive, Affective, and Psychomotor. Student-teachers prepared and taken theme-based lessons in teams of three. They initiated teaching this content and developing cognitive aspects among students. Later at the second stage, they sensitized them by conducting activities and giving examples. At the third stage, they gave cloth bags provided by the LUCE and asked students to draw or paint the message related to the theme selected. School students had participated in the activity, very actively. Later on Student- teachers used the same bags to create awareness among vegetable vendors. Students teachers have distributed those cloth bags to grocery shopkeepers. They also asked them to commit not to use plastic bags and spread awareness related to the side effects of plastic in the environment, to three more people or families for better results.

Student-teacher had celebrated 14th Nov,2019 on the occasion of Children' Day in the internship schools. Following activities were conducted by them in respective schools related to sensitize children about Air Pollution in the context of the recent ill effect of fire crackers, which is causing serious health issue in our country especially post festival celebration. They also intended to develop empathy among school students by sensitizing towards child labour involved in firecracker industries. They also asked school students to

take the pledge. This awareness activity was carried out through Role play, Discussion and Display of charts.

The college had also collaborated with Prayas NGO where street children were taught for 30 hours. Apart from this, the college had collaborated with Mahiti doot, and, student teachers surveyed family members and created awareness in families regarding women's rights, government policies for economically backward sections of society.

Community Work done by students in various special schools

Nai talim based Lessons taken in school and distribution of cloths bags in community

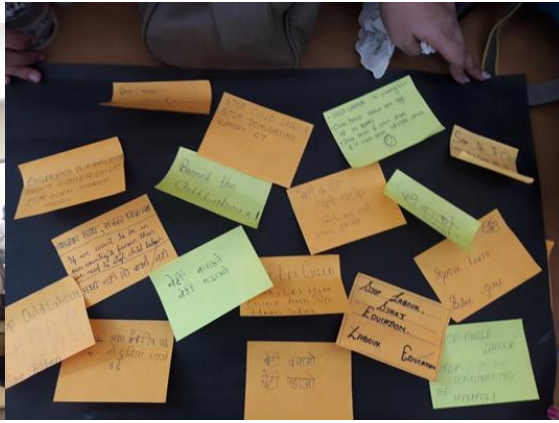

Students offered their services to Prayas Center to teach street children and awarded certificate for the same

Single use plastic ban awareness in community

2019-2020

Due to pandemic students made mask and distributed in their nearby surrounding by observing government guidelines.

On the occasion of International Yoga day, students have trained school students for yoga and pranayam to increase their immunity.

S.Y. students had completed VENTEL PROJECT based on the Nai Talim. Students have conducted activities like kitchen gardening, painting, craft, stitching, SUPW, cooking various cuisines at home and taking feedback from locals and can be taken as vocation in future.

S.Y. Students had conducted awareness programme on Corona virus amongst students and adults. This was taken under research and effectiveness of this programme was checked through pre-test and post-test.

Hand made face mask and distribution in Community
